MEMORANDUM FOR: Representatives of National Foreign Intelligence Board  
FROM: Acting National Intelligence Officer for Strategic Programs  
SUBJECT: Orientation Trip to US Military and Industrial Facilities

We are due for another "field trip," similar to the one NIE 11-3/8 participants took in 1978. While it is somewhat early to be arranging an itinerary, representatives should be providing for such a trip in the FY-82 budgets of their respective agencies. We are contemplating a trip of the scope of the last one, visiting facilities across the country during the late-spring or early-summer of 1982. We also may want to take some separate, shorter excursions (e.g. naval installations at Norfolk, Va.). Representatives should obtain guidance from their budget offices for the amount of funds to program; however, in 1978, the cost of the 11-day tour, which included some use of military aircraft, was around \$800 per person.
